

# 0.025M Calcium Chloride

CE

## Intended Use

**0.025M Calcium Chloride** is intended for use to initiate clotting in plasma samples that have been activated by APTT Reagent or other activators.

## REAGENT

### *FOR IN-VITRO DIAGNOSTIC USE ONLY*

**Ingredients:** Each vial contains 0.025M Calcium Chloride. 0.02% Sodium Azide as a preservative.

**WARNING: Sodium Azide:** This reagent is preserved with sodium azide which can form highly explosive metal azides if exposed to lead or copper in plumbing. This buffer should be discarded into a sink only with large volumes of water to minimize such risk.

**Preparation for Use:** The buffer is packaged ready for use.

**Storage and Stability:** The buffer is stable until the expiration date printed on the label when stored at 2-8 ° C.
